2014 Annual Report to Our Community

Building Access to Care Through Partnerships

A Message From Our CEO

2014 has truly been a year for the record books here at PMH Medical Center and we have you to thank. We recognize that at the heart of every patient decision is the question of confidence in the doctors, nurses and technicians who provide your care. We made a commitment that you would never have to compromise quality to receive your care locally and we have kept that promise.

We challenged ourselves to always do the right thing, for the right reason with the right partners. This is a strategy that is served our communities well in 2014. Everywhere you look at PMH we are experiencing double digit growth. You will read in this report about our service growth in 2014, our investment in services, our commitment to serving the underserved.

Building Access to Care Through Partnerships for New Moms, Kids and Specialty Care
More new moms and young families are choosing PMH every month. The partnership between PMH doctors, community doctors and Kadlec OB/GYN together with the talented anesthesia and nursing staff in our beautiful new Labor and Delivery Department guarantees the highest quality, most comfortable experience for mom.

In 2014 we took our successful PMH/Kadlec partnership in Adult Hospital Medicine and created a “downsized” version to fit our smallest patients. At PMH we recognize that young patients are very different from our adult population. They require the specialized care that our partnership with the Kadlec Pediatric Hospitalist program affords. Pediatric Hospitalists are trained specifically to take care of children in the hospital. Through this unique partnership, you can be confident that day or night, any day of the week, your child will receive the highest quality care right here at PMH Medical Center.

Some of the things we are looking forward to in 2015: expanding both primary and specialty care choices, continued growth, a focus on customer service that we call the Always Campaign, a laser focus on quality and a fresh emphasis on keeping you healthy. Our goal is to reach you where you already gather in places like churches, farmers markets, health clubs, food banks and schools. We are reinvesting in technology, training, work force and wellness to serve our communities and expand our services.

We appreciate the confidence that you place in us every time you choose our hospital and clinics.

It is a privilege.

2014 BY THE NUMBERS

	2013	2014	INCREASE
Emergency Department & EMS	9,836	11,179	14%
Surgical Clinic Visits	6,900	8,605	25%
Surgical Procedures	913	1,087	19%
Diagnostic Imaging	14,341	17,798	24%
Therapy Visits	11,619	13,900	20%
Family Medicine Visits	8,478	10,797	27%

In 2014, the district collected over \$740,000.00 in tax revenue which was used to improve equipment, expand services and enhance care for our patients.

BUILDING ACCESS TO CARE THROUGH PARTNERSHIPS

PMH Pain Clinic Opens in Benton City

PMH Pain Clinic has been designed in collaboration with Kadlec Clinics and Kadlec Neuroscience to fill a need in the community to provide medical pain management services. The clinic specializes in the management of medication for those suffering from chronic pain conditions.

Kadlec Obstetrics & Gynecology

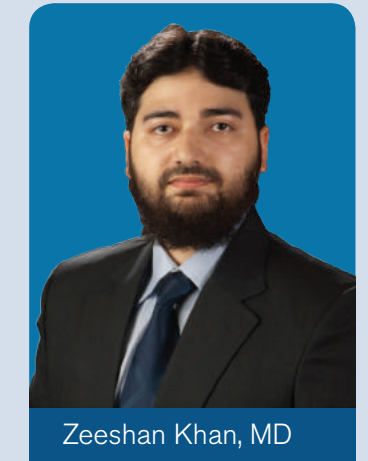

Expectant moms can visit Kadlec Clinic Obstetrics & Gynecology in Prosser for pregnancy management, and prenatal care before delivering their new baby at PMH Family Birthplace. Experienced physicians, Lisa Galbraith, DO and Brian Sollers, DO specialize in obstetrics and gynecology and care for patients at the clinic. Services at Kadlec Clinic-Obstetrics & Gynecology include gynecology care, contraception and pregnancy management, urinary incontinence treatment and preventative medicine.

Zeeshan Khan, MD

PMH Welcomes Kadlec Pediatric Hospitalists

Through a partnership with Kadlec Regional Medical Center, our Pediatric Hospitalist team is working to provide services that previously have not been available in our community. Kadlec Regional Medical Center's Pediatric Hospitalists are a team of Pediatricians who have completed four years of medical school and at least three years of pediatric residency. They work collaboratively with your primary care provider and pediatric subspecialists as needed to provide the highest quality inpatient experience for your child and family.

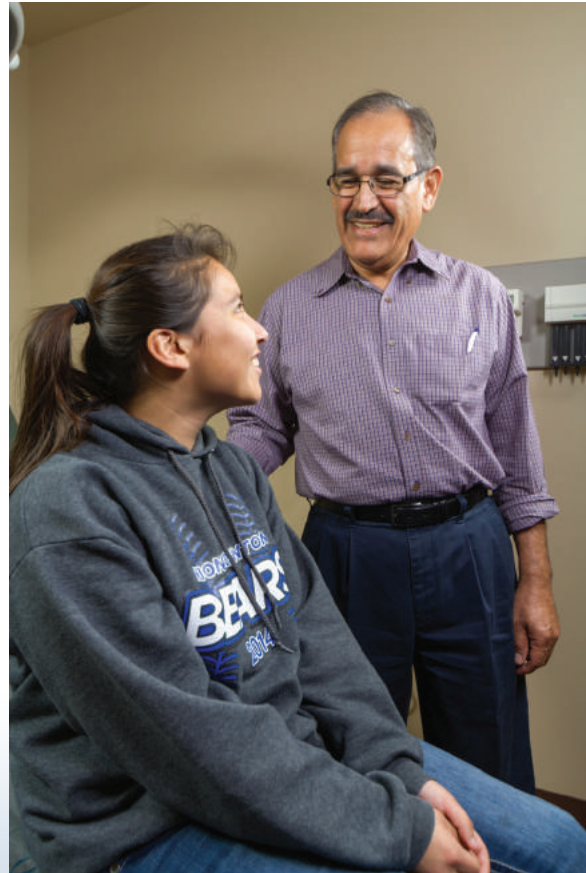

Kadlec Primary Care opens in Prosser

Kadlec Clinic Prosser Primary Care, formerly Adventist Health Medical Clinic, is now open, serving patients of all ages – newborns to seniors. Dr. Albert Fiedler and Dr. Kiranmayi Korimerla provide annual physicals for men and women, well-child checks, sports physicals for children and adolescents, treatment for illness and injury, and medical management of patients with chronic conditions such as diabetes, hypertension and others.

EXPANDING CARE

PMH Family Medicine welcomes Miguel Medrano, PA-C

It was forty years ago that Miguel, his mother, and four siblings left Ciudad Juarez, Mexico to make a better life in the United States. At the age of 21, Miguel had already been working for nearly a decade, could speak only Spanish, and had just a sixth-grade education. Determined to work hard, he spent his twenties as a machinist in San Diego but a disability causing painful headaches turned his life to medicine. At age 35, he started night school, learned English, and then earned his high school diploma and his associate's degree. He supported himself by working when and where he could. Miguel went on to earn his BS in 1993 and spent the next five years working for Kings County Public Health. With a desire to continue learning, he graduated from UC Davis in 2000 as a Physician's Assistant and has been caring for patients ever since. In 2012, Miguel was honored as the Latino Leader in Medicine by the Professional Latin American Association. PMH Family Medicine welcomes Miguel Medrano to the team of providers in Benton City.

Dr. Derek Weaver is now at PMH Family Birthplace. Specializing in obstetrics and women's health, Dr. Derek Weaver has been caring for women and their babies in the Valley for five years. A Sunnyside resident, he is Board certified in Family Practice and well experienced in prenatal and obstetric care. Dr. Weaver is fluent in Spanish and a welcomed addition to PMH Family Birthplace.

PMH Family Birthplace Opens

The new and expanded PMH Family Birthplace opened its doors in September after several months of planning and construction. The four OB suites bring the latest in technology and care, all together in a spa environment. Pampering features include Jacuzzi tubs, rainfall showers and aromatherapy. A ribbon cutting and open house was held in early December to unveil this beautiful new facility to the public. Tours were provided and the event was well attended by the community. The first 100 moms to deliver were treated to a plush new robe and gift certificate to either a local dining establishment or Picture This Photography, compliments of the PMH Foundation.

PMH in the Community

Providing healthcare to hundreds in our community each year.

PMH Uncompensated Care in 2014

\$3,482,113

Food Drive

In November, PMH held its second annual food drive benefiting Jubilee Ministries Food Bank with participation from PMH Employees, Medical Staff, Volunteers, and PMH Foundation Board. The 2014 numbers surpassed the 2013 numbers by a whopping 162% providing 2,420 pounds of food and \$4,411 in cash donations.

Go Red Health Fair

Each February, PMH celebrates Go Red for Women Month with a community health fair. This is a FREE event and open to both women and men. Go Red is aimed at encouraging awareness of women and heart disease.

Free screenings include: Lipid Panel (cholesterol, HDL, LDL, Triglycerides), Blood Sugar Checks, Blood Pressure Checks, Bone Density Screening, Heart Health Information, Pulmonary Function Tests and more.

for February 2016

Think Pink Health Fair

Annually in October, PMH Medical Center provides a FREE health fair open to men and women in coordination with Breast Cancer Awareness Month.

The event offers free health care screenings, tests and breast health education is given by PMH staff. Attendees are encouraged to wear pink and specialty items are available in the PMH Gift Shop.

for October 2015

Helping Patients at Jubilee Food Bank

In 2014, the PMH Community Paramedic Program started offering free blood pressure and blood sugar checks to those that may not otherwise seek out or afford these services. Patients are given a card to track and monitor these vitals over a period of time.

"This is a great idea primarily because the majority of those who use the Food Bank are in financial crisis and would very likely avoid or put off seeking medical attention if needed."

- Bill Notaro, Executive Director, Jubilee Ministries Food Bank.

Our Mission

Striving to improve the healthcare in our community by supporting activities of PMH Medical Center and its mission through education, volunteerism and fundraising.

Dollars Donated

\$62,746+

Hogue Classic

The Hogue Classic is the primary funding source for PMH Foundation's Wayne Hogue Capital Fund. This fund provides for facility improvements, hospital equipment and staff training. Wayne Hogue was a lifelong supporter of PMH Medical Center.

A dedicated philanthropist and businessman, Wayne insisted on leading by example. As a past Chairman of our Board of Commissioners, he used his many resources and talents to steadily improve the high-quality healthcare that we enjoy today. Wayne always believed that in fundraising, "You just have to ask."

Each year the PMH Foundation partners with "A Night Out" to host a benefit dinner and auction in early September. "A Night Out" is one of Washington's premier wine country charity events hosting 500 guests annually from across the Northwest. Our success is because of people like you who have given generously of their finances, products, services and time.

WINE COUNTRY DINNER AND AUCTION
 BENEFITING THE PMH FOUNDATION

Rock n' Rods

The Ryan Veloz Pediatric Fund was established by Ryan's family as a way to recognize the love and spirit that he inspired. We hope that this love can serve as a beacon, bringing our community together in support of pediatric care at PMH Medical Center.
